SAKS KC01

Designed by Poul M. Volther

The visual and physical appearance of the SAKS chair clearly represents all the design values and principals that Poul M. Volther focused on bringing into his designs. With the chair being comfortable, functional, well crafted and visually pleasing, it truly has the potential of becoming a true ‘Danish Design Classic’.

The name, SAKS, means scissor in danish and refers to crossing legs and their shape. With the significant design and beautifully lines, the SAKS chair will bring character and create a harmonic and pleasing look around the dining table.

Customers own fabric (price w/o fabric)			

*Made from recycled materials.

FABRIC, LEATHER & WOOD OPTIONS - P. 11-16

RAM STEEL KC02

Designed by Steffensen & Würtz

The shape of the back is what characterizes RAM. The harmonic lines and dropping curve on the slightly oversized back mimics the shape of a rams head and horns.

The RAM chair is created with the intention to make a dining chair that is flexible in its form and function so it will easily match different interiors and tables. RAM is designed with two different leg types, steel or wood, which each bring its own character to the chair. With the steel legs, the chair is stackable and therefore it is perfect for environments where extra chairs often is needed.

These chairs are stackable (4 chairs high), but be aware that over time the stacking will cause wear / marks on the chairs!

KC02 - RAM STEEL		Dimensions: W50 H78 SH45 cm

METRO KC04

Designed by Mia Lagerman

With the METRO chair Mia wanted to make a simple yet comfortable wooden chair suitable for many types of rooms, contexts and styles. Light, shadow and simple shapes create a contemporary look, exploring a new take on a classic chair type. Looking out the studio window at a constructions site of the new Copenhagen metro line the name came naturally, emphasizing an urban quality.

The METRO chair is characterized by the organic curved armrests and the back legs, which in an elegant way also serves as a comfortable backrest support.

KC04 - METRO		Dimensions: W57 H75 SH45 cm	
Upholstery	Price (EUR)

*Made from recycled materials.

FABRIC, LEATHER & WOOD OPTIONS - P. 11-16

VEIFA COMFORT KC05

Designed by Studio Nur

Based on architectural principles and the Scandinavian tradition, the VEIFA Chair is an innovative take on a timeless idiom. The curved backrest embraces and supports the body, while the harmonic shape is an approach to the minimalistic design idea of "less is more". Attracted to its elegant curves, this chair is an eye-catching piece of furniture that brings a light expression and yet a strong and solid construction. VEIFA is the Icelandic word for waves and curves which is the essential detail of the chair design.

KC05 - VEIFA COMFORT		Dimensions: W62 H76 SH45 cm

NORDIC CHAIR KC06

Designed by Nissen & Gehl

Nordic Chair is created by a renowned Danish architect duo who have often been compared to their even more famous colleague Hans J. Wegner. Nordic Chair refers to classic notes in Danish design history but it brings something new by virtue of an innovative seat - shaped like a bowl. This seat design makes the interaction between body and chair a soft and welcoming experience.

KC06 - NORDIC		Dimensions: W50 H80 SH45 cm

MINESTRONE CHAIR

Designed by Hans Sandgren

The Danish designer Hans Sandgren created this chair on behalf of the philosophy "Less is more". He believes that a piece of furniture should consist of just the essential - then it will appear clean and simple.

Minestrone's three-dimensional designed back provides optimal back support. An important detail when it comes to having fun with friends and family around a well-set table.

WOOLY FABRIC

Recycled Felted Wool

Wooly is made of felted recycled wool. It may be leftover material from clothing manufacturing or other wool products that are recycled. Each kilogram of pure new wool produced generates 9 kg of carbon dioxide. Processing 1 kilo of recycled wool generates just 0.5 kg of carbon dioxide.

Material: 70% recycled wool, 25% polyamide, 5% mixed fibers

Martindale: 250,000

Manufacturer:

nevotex

Wooly comes in many different colors.

MARGRETHE FABRIC

Recycled Woven Wool

Margrethe is made of woven recycled wool. It may be leftover material from clothing manufacturing or other wool products that are recycled. Each kilogram of pure new wool produced generates 9 kg of carbon dioxide. Processing 1 kilo of recycled wool generates just 0.5 kg of carbon dioxide.

Material: 70% recycled wool, 25% polyamide, 5% mixed fibers

Martindale: 250,000

Maintenance: dry cleaning

Manufacturer:

nevotex

Margrethe comes in many different colors.

MEGAN FABRIC

Polyester Velour

Megan is a soft and elegant polyester velour, which contributes with an exclusive look.

Material: 100% polyester

Martindale: 170,000

Maintenance: wash or dry cleaning

Manufacturer:

nevotex

Megan comes in many different colors.

MINE FABRIC

Polyester Chenille

Mine is a soft yet durable chenille fabric with many applications.

Material: 96% Polyester, 4% Nylon

Martindale: 45.000

Maintenance: wash or dry cleaning
